Product description

Lot offer consisting of 5 metal pallet collars 1240x1240 mm including 5 wooden pallets. The hot-dip galvanized pallet collars are demountable and foldable. The advantage of this compared to gitterboxes is that these pallet collars take up much less space when not in use or returned empty. Very suitable for storing or transporting bulk goods, but can also be used as store bins (wire baskets) within retail.

Notice! These collars are NOT stackable.
