Technical information

Productnumber : 99-718-PAL

Product description

Pallet offer consisting of 15 new wooden europallet with wood fiber bobbins according to the EPAL standard with dimensions of 1200x800 mm. A pallet that meets the standards and specifications specified by the European Pallet Association (EPAL). Europallets are the most well-known and common pallets in the market. Produced according to the EPAL standard to safely and efficiently transport and store goods. The dynamic load is a maximum of 2000 kg. The dynamic load is the maximum load during transport, when evenly distributed. Can be picked up from all four sides using a forklift or pallet truck. Interchangeable in the europallet pool, allowing the pallet to be safely used and exchanged between different companies without problems. In addition, the pallet is "Heat Treated. By performing this Heat Treatment, all harmful organisms are killed. Wooden pallets that undergo Heat Treatment meet the ISPM15 requirement. ISPM15 applies to packaging made of solid wood for supporting, protecting or transporting goods.

Also available as used, see art. no. 99-718GB.

Specifications

Article arrangement: New
Version: europallet
Euronorm (mm): 1200 x 800
Width (mm): 800
Insertion height (mm): 100
Weight (kg) 22.5
Batch (items): 15

Type: batch offer
Material: wood
Length (mm): 1200
Height (mm): 150
Loading capacity (kg): 2000
Type number: 0718
EAN Code (Gtin) 8719424152395
