Technical information

Productnumber : 98-7039GB

Product description

A used wood pallet labeled CP9 and HT has specific characteristics that indicate it meets certain international standards for handling and quality. CP stands for "Chemical Pallet," and CP9 is a specific classification within the CP system. CP9 pallets are commonly used in the chemical industry. They have a standardized design and dimensions (square) to promote efficiency in logistics processes, especially in situations where chemicals are transported and stored. HT stands for "Heat Treatment," indicating that the pallet has undergone a heat treatment process. The heat treatment is designed to kill any insects, larvae, pathogens or fungi in the wood, making the pallet less susceptible to pest infections. It also reduces the risk of spreading pests across borders. These features make the pallet suitable for international transport and trade, where strict regulations apply to limit the spread of diseases and pests.

Specifications

Article arrangement: Used

Version: 4-sided

Surface treatment: signs of use

Width (mm): 1140

Weight (kg) 20.5

EAN Code (Gtin) 8719424229943

Type: block pallet

Material: wood

Length (mm): 1140

Height (mm): 160

Type number: 7039GB
