

Technical information

Productnumber : 72507802

Product description

The Giant is the 'smallest' of the family of stepladders. Ideal when you have to go just one step higher. This household stepladder is sturdy, durable and extremely compact to store. And therefore invaluable with all small jobs in the house.

The Giant is small in size and big in stability. The reliable construction and the extra-large 20 x 30 cm treads ensure optimal standing comfort. The Giant feels great because of anodizing. Therefore this household ladder is also dirt-repellent. Once folded it takes up only 3,5 cm of space, meaning it can be stored in any corner of your house.

Specifications

Article arrangement: New

Version: 2 steps

Subgroup: Stairs

Width (mm): 540

Platform height (mm): 450

Weight (kg) 3

Height when folded (mm): 900

Work height (mm): 2450

Type: Altrex stepladder

Material: aluminium

Colour: alu silver

Height (mm): 900

Depth (mm): 520

Type number: 507802

Additional specifications: type use: private

EAN Code (Gtin) 8719424175417
