Product description

Fully collapsible used mesh container - B grade, with damage. One long side wall folds half way for easy access. The sturdy steel frame stands on four legs and can easily be picked up on both sides by a forklift or pallet truck. The wire container is stackable both when folded and unfolded. Are you temporarily not using it? Then you can simply stack these containers when folded, which results in a considerable volume reduction.

Please note! B-quality with damage: due to the used condition, the gitterbox can be folded in and out with difficulty.
