Product description

Used anti-theft roll container on A-frame of electrolytically galvanized steel. These trolleys can be closed completely by means of a door with clamping hooks so that everything remains in place during transport. That is why it is extremely suitable for transporting valuable goods, among other things. Due to the dense meshes, the loss of objects is prevented. The safest way to transport valuable goods. This container runs on rubber wheels. The door, side walls and roof are foldable to make the wagon nestable. This saves you considerable space during storage and transport when you have not used these warehouse trolleys.
