Product description

Batch offer of 40 green lacquered steel ammunition boxes with a capacity of 17 liters. The robust container has a lid that can be closed by means of clamps on both short sides. The sturdy box is very suitable for long-term storage of various materials or can be used as a tool box. Handy and easy to move due to the handles on both short sides.

Please note that the boxes have different lid clips (see photo 6). These are also not picked out and therefore delivered with different clamps! Contains internally a non-visible lubrication layer due to previous contents.
