Product description

A used stacking rack with dimensions 2197x1605x1530 mm (l x w x h), which means it offers spacious storage solution. Commonly used in the carpet industry for storage and transport of medium to large carpet rolls. The storage rack is made of blue painted steel, which ensures durability and stability. The use of steel makes the rack able to withstand heavy loads and provides protection against rust and corrosion. Features extra-wide notch skids on both short sides for easy pick-up and transport by forklift and multiple racks can be safely stacked on top of each other. The long sides are equipped with steel frames. The short sides of the rack are open, making it easy to load and unload carpet rolls. This open design also maximizes accessibility to stored goods. The rack is equipped with a wooden bottom plate, which provides a sturdy surface for placing the carpet rolls. This not only protects the rolls from damage, but also provides additional support for the entire rack. An efficient solution for storing and transporting carpet rolls in warehouses to distribution centers and factories, where durability, stability and accessibility are key.

Specifications

Article arrangement: Used

Version: stackable

Floor: wooden floor plate

Surface treatment: painted and use damage

Internal length (mm): 2197

Internal width (mm): 1397

Internal height (mm): 1360

Options: with insertion sleeves

Type: fixed construction

Material: steel

Colour: blue

Length (mm): 2197

Width (mm): 1650

Height (mm): 1530

Weight (kg) 220

Type number: 7233GB
