## Technical information

**Productnumber : 87304-V**

### Product description

These stacking racks can be used as mobile storage racks. Available in various versions, but above all flexible in height. The loading floor is designed for all standard pallet sizes, voluminous or goods that are difficult to palletise.

You can determine the height of the stacking racks yourself by making a choice from the stanchion lengths below. To determine the useful height (read: height to be loaded), take the total stanchion length minus 170 mm (example: stanchion length 1680 mm - 170 mm = 1510 mm). Of course, deviations from the standard lengths are possible, please contact us for the possibilities.

An indispensable logistics solution for almost every warehouse or company logistics. Think of environments such as the metal industry, large construction, small construction, production companies and the automotive industry. Because the rack has space for 2 pallet places with other space next to it, it is very suitable for long material or large material.

### Specifications

Article arrangement: New  
Version: suitable for stanchions 60.3  
Floor: open lattice frame  
Surface treatment: galvanized  
Internal length (mm): 2215  
Internal width (mm): 875  
Insertion height (mm): 100  
Weight (kg) 45.5  
EAN Code (Gtin) 8719424026092

Type: mobile storage rack  
Material: steel  
Colour: colorless  
Length (mm): 2450  
Width (mm): 1110  
Height (mm): 300  
Loading capacity (kg): 1000  
Type number: 87304
