Technical information

Productnumber : 99-5927-GB

Product description

Used and collapsible stacking rack with perforated bottom. This versatile construction is powder coated in blue RAL 5003. Push-in brackets on both sides make the rack easy to move. When folded, the racks are extremely easy to stack and store. The load capacity is 1000 kg and the maximum stacking load is 4000 kg.

The racks are extremely suitable in environments such as automotive, garages, workshops, warehouses or distribution halls. Because the height of the racks is 2200 mm, you can put away very high stuff. All this for a more effective warehouse!

Attention! B-quality, with damage: crooked insertion bracket (see photos).

Specifications

Article arrangement: Used
Version: B-quality, with damage
Walls: pipe frame
Colour: blue
Surface treatment: signs of use
Internal length (mm): 2200
Height (mm): 2200
Loading capacity (kg): 1000
Stacking load (kg): 4000
EAN Code (Gtin) 8719424190151

Type: stackable and foldable
Material: steel
Floor: flat steelplate with dewatering holes
Ral colour: 5003
Length (mm): 2395
Width (mm): 1249
Insertion height (mm): 100
Weight (kg) 153
Type number: 5927
