Product description

A used steel warehouse trolley, also known as a shelf trolley, is a valuable tool in logistics and storage environments, where they help manage flows of goods and move materials. The frame of the shelf trolley is made of steel, which ensures strength and durability. Steel is resistant to wear and tear and can carry heavy loads, making the warehouse trolley suitable for industrial applications. The open side walls of the shelf trolley provide easy access to the contents and allow quick inspection and updating of the load. This is useful when moving goods in a warehouse environment. Equipped with bottom + 4 fixed steel shelves. These shelves provide a solid platform for placing goods and can carry both light and heavier items. The trolley has 4 rubberised wheels of which 2 are fixed castors and 2 swivel castors with a diameter of 100 mm. The swivel castors make it easy to move the table trolley in different directions. Using a shelf trolley increases efficiency in a warehouse or workshop by allowing goods to be moved quickly and easily, saving time and labour.

Specifications

Article arrangement: Used

Version: with 5 shelves

Walls: open

Wheels front: 2 castor wheels solid rubber 100 mm

Wheels back: 2 fixed wheels, solid rubber 100 mm

Surface treatment: electro-galvanized and use damage

Internal length (mm): 1300

Internal width (mm): 500

Internal height (mm): 1500

Type number: 7119GB

Type: shelved trolley

Material: steel

Floor: flat steel

Subgroup: Used

Shelves: floor / 4 shelves

Length (mm): 1340

Width (mm): 590

Height (mm): 1550

Weight (kg) 60

EAN Code (Gtin) 8719424232660
