Product description

A used steel shelf trolley, also called a warehouse cart, is a useful tool suitable for various applications, such as moving tools, materials, boxes, and other goods in warehouses, workshops, and manufacturing environments. The warehouse cart is made of steel, which ensures durability and sturdiness. Steel is resistant to wear and tear and can support heavy loads, which is essential for use in industrial environments. The cart features three height-adjustable wooden shelves. These shelves provide a flat surface to place and organize goods. The fact that they are height adjustable makes it possible to adjust the layout of the trolley to suit different loads or storage needs. The tiered cart has open walls, meaning it is easily accessible from all sides. This makes it easy to place goods on or off the cart, even when fully loaded. Equipped with two rubber swivel casters and two rubber fixed-wheel casters with a diameter of 200 mm. The swivel casters make it easy to maneuver the cart in different directions, while the fixed-wheel casters provide stability when the cart is stationary. Rubber wheels provide grip and reduce vibration, which is useful when moving goods without damaging them.

Specifications

Article arrangement: Used

Version: 2 open side walls

Walls: open

Wheels front: 2 castor wheels with wheel locks 200 mm.

Wheels back: 2 fixed wheels, solid rubber 200 mm

Colour: blue

Length (mm): 1180

Width (mm): 600

Height (mm): 1800

Type number: 7129GB

Type: shelved trolley

Material: pipe material profile steel

Floor: wood

Subgroup: Used

Shelves: floor / 3 adjustable shelves

Surface treatment: painted and use damage

Internal length (mm): 1000

Internal width (mm): 580

Weight (kg) 63

EAN Code (Gtin) 8719424232820
