Product description

Prevents fire from sparks or spontaneous combustion

- Container for disposing of oil-soaked rags to prevent fire from sparks and combustion. spontaneous.
- Lid remains closed when not in use to isolate contents from fire sources and limit oxygen supply.
- Durable steel construction with powder coating for good chemical resistance.
- With rotating carrying handle.
- The raised round base construction allows air to flow around the bin to dissipate heat and reduce moisture build-up and corrosion.
- Warning label with pictograms to reduce communication issues.

Specifications

Article arrangement: Used
Version: for hazardous substances
Walls: walls closed
Subgroup: Waste bin
Surface treatment: signs of use
Width (mm): 470
Weight (kg) 9.14
EAN Code (Gtin) 8719424203271

Type: steel waste bin
Material: steel
Floor: closed
Colour: red
Length (mm): 470
Height (mm): 600
Type number: A616181
