Product description

Set of 4 ISO set sea container casters, Ø250x76 with ISO lock, and brake 4500kg

The ISO set container swivel casters are very suitable for moving sea containers or ISO containers. Those heavy duty casters are attached by ISO lock / twistlock to the bottom of the ISO container at each corner and easily fixed.

A single caster contains 2 wheels with cast iron cores and polyurethane treads. This makes the rolling resistance very low and at the same time, these special wheels can each take 4500kg. A set of ISO set wheels consists of 4 caster wheels and carry a total dynamic weight of 13,500kg and a static weight of 18,000kg. Equipped with a third wheel (support wheel) for better positioning under the container.

Wheel diameter: 2x 250 mm

Wheel width: 2x 76 mm

Static load capacity (per set): 18,000 kg

Dynamic load capacity (per set): 13,000 kg

Construction height: 330 mm

Plate dimensions: 240x190 mm

Bearing type: Ball bearing

Hardness: 90 shore A

Housing material: Welded steel

Material tread: Polyurethane

Directional lock: 4x 90°

Contains additional support wheel

1 set contains 2 braked and 2 unbraked wheels.

Specifications

Article arrangement: New

Version: Ø 250 mm - set of 4 pieces

Colour: orange

Width (mm): 76

Wheel bearing: ball bearing

Type: container wheel

Material: polyurethane rolling surface

Length (mm): 250

Loading capacity (kg): 13500

Type number: 75121826
